

13 April 1983

MEMORANDUM FOR: Acting Chief, Career Management Staff, DDA
FROM:
Executive Officer,
Office of Medical Services
SUBJECT: Review of Comparative Evaluation Descriptors
REFERENCE: Multiple Addressee Memo Frm AC/CMS/DDA dtd
21 Mar 83

STAT

Upon polling OMS component chiefs and panel members, the evaluation categories involving five descriptors was the comparative evaluation system of choice. The Chief, Psychological Services Division also opined that the five-category system was used in the past as a criterion measure in test evaluation research, and he found that this system was very effective and that it works.
